

ExamView Pro Import Tests From MAC

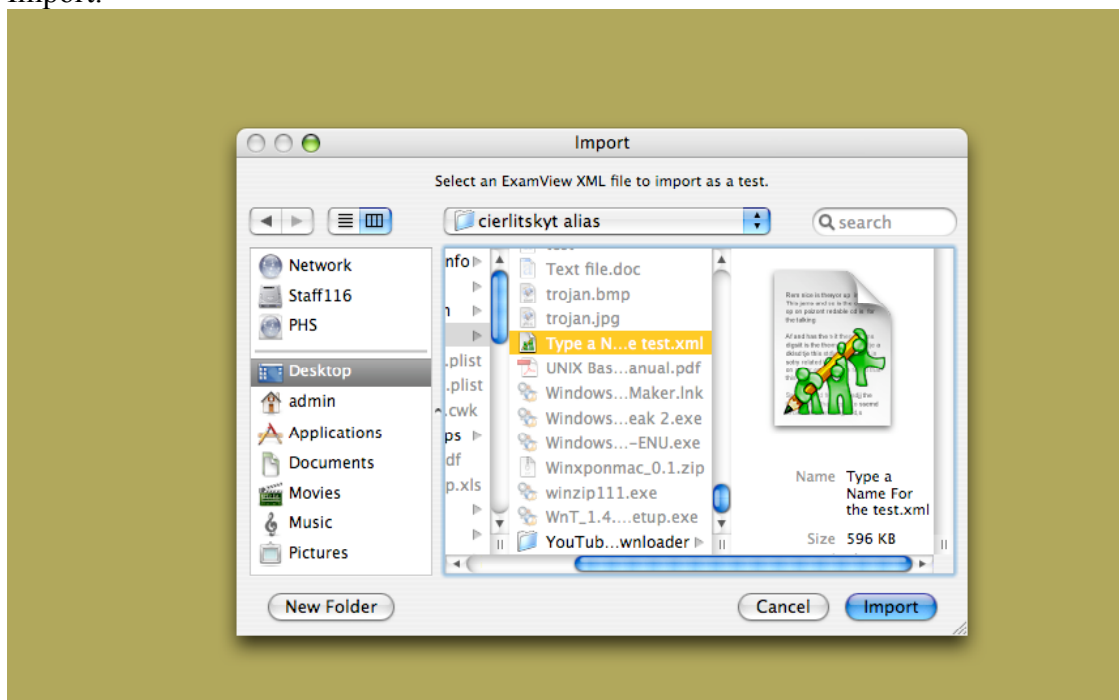

1. Open ExamView Pro on the MAC (Test Generator)
2. Select Open Test.
3. When box comes up asking you where your test is click cancel.

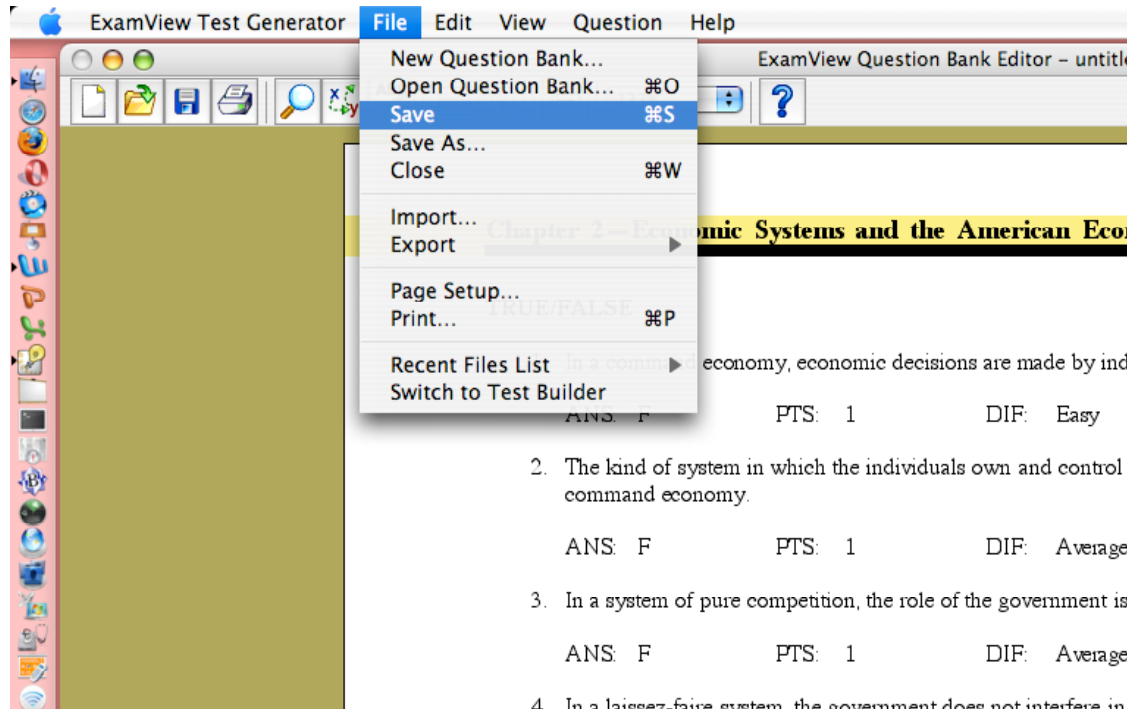

4. Go to the File Menu and Select Import

5. Go to your home drive and select the test you want to use on the MAC. Click Import.

6. When the test imports you will see it on your screen. Go to the file menu and select save. Be sure to save it to your home drive so that you will have it.

7. After you have successfully imported your tests you may delete the xml files from your home drive if you like.
